Product description

MDB MAINBOARD FOR VENDING MACHINES & LOCKER

> **Important compatibility note:** In terms of hardware, both machines with a touchscreen and keypad models without a lift (10G) use this board for MDB communication. **Attention:** However, depending on the model, different software is required!

The **MDB Mainboard** is a powerful control unit, primarily configured for **vending machines with keypad and no lift (no touchscreen)** It offers a wide range of connections and, with a reliable Nuvoton processor, ensures a **stable and efficient performance**.

Product details:

- **Processor:** Nuvoton processor for reliable performance.
- **Application:** Vending machines with keypad and no lift (no touchscreen).
- **Connectivity:** 26 slots for versatile connections.
- **Battery:** Includes Panasonic CR1220 3V BIOS battery for data retention.

Dimensions:

Size: 12.5 x 11.5 x 1.3 cm

The ideal solution for **optimal control and MDB connectivity** in your vending machine! ??
