

Automatic containers

Robust automatic container for your own 24/7 shop – mobile, isolated and individually configurable. Perfect for the start in the vending machine.

Item number UD10420

Product description

Your individual – machine container space for your vision

Finished with standard solutions from the bar. Our automated containers are as unique as your location. We do not offer you a rigid box, but a flexible base that is made exactly according to your ideas and requirements. Whether compact solution or generous sales space – you decide.

(The images serve only as an example of inspiration for possible explanations.)

100% INDIVIDUALISED: From the dimensions to the facade design to the positioning of windows and doors – we build the container exactly as you need it for your business.

Design freedom

Dimensional production:We adapt the size and spatial layout exactly to your local conditions.

Optics & Design:Choose facade elements, colors and decorations that perfectly represent your brand – from modern anthracite to warm wooden optics.

Light & Access:Determine the number, size and position of shop windows, doors and ventilation elements.

Equipment & Comfort

Year-round solution:High-quality insulation and high-performance air conditioning ensure well-being temperatures at any time of year.

Plug & Play:On request we supply the container completely pre-installed with or without electrical and lighting, ready for your machines.

Robust base:Durable materials and easy-care floor coverings guarantee high value stability.

A unique gift for your success

No matter what idea you have – we put them around. Let us plan your perfect automated location together.
