Product description

Cover for coin money insert - two-piece set for interior & External assembly

This two-part cover set for the coin money insert consists of an outer cover as well as a matching inner piece for secure assembly. It serves the clean and secure closure of unused coin openings at vending machines.

Ideal for machines where the coin insert remains deactivated or unused. The robust plastic construction ensures a stable seat and easy fastening.

Characteristics:

- Two-piece set: exterior & Internal cover
- Robust plastic material
- Custom mounting from inside and outside
- Perfect for machines without coin acceptance
- Fast, secure and durable fastening
