Product description

Plastic end pieces for coin slot - 4er set for precise hold

This 4er set of robust plastic end pieces has been specially designed for use in coin shafts in automatic machines. The end pieces provide a clean finish and stable hold of the coin guide and are ideal as a spare part or for retrofitting.

Thanks to their precise design, they can be quickly and easily mounted – for a smooth operation in daily machine use.

- ☐ 4 pieces in set
- ☐ Suitable for coin shafts of common machines
- ☐ Simple Exchange & Assembly
- ☐ Stable Guided Tour & clean edges
- ☐ Made from durable plastic
