Credit card providers	40+ (worldwide acceptance)
Alternative payment methods	40+ (Incl. Prepaid & Apps)
Updates & Diagnosis	OTA (Over-the-Air) Updates & Remote diagnosis
Security certification	PCI-PTS certified

Core functions and efficiency advantages

- Improved customer interaction: The 4-inch touchscreen allows the use of Loyalty programs and interactive advertising, increasing the transaction value.
- Time savings: The cashless solution eliminates coin handling, cash counting and bank visits – maximizes time for your business growth.
- Higher availability (uptime): Thanks to the telemetry warning system, you will be notified immediately by SMS or email for problems. Coin jams are completely avoided.
- Sales increase: Flexible pricing without restrictions on rounded prices. You can easily cover price increases.
- All-in-one solution: payments, telemetry and security management in a compact terminal.
