Item number UD10669

Product description

ICT LX7 BILL READER– MAXIMUM SECURITY FOR OUTDOOR USE

The **ICT LX7 bill reader** sets new standards in efficiency, precision, and security with its innovative technology. This modern banknote reader was specifically designed to ensure the highest reliability in banknote processing, even under demanding conditions.

Weatherproof and Robust: Perfect for Outdoor Areas

The LX7 features an advanced, **water-repellent design**, making it impervious to weather conditions, moisture, and evaporatedness. The LX7 maintains full functionality even under extreme conditions.

Ideal for use in:

- ? Coffee Spiral Vending Machines
- ? Merchandise Vending Machines (e.g., regional product/farm machines)

Double Security: Lockable Cashbox

The removable cashbox is protected by a **double locking system**. An additional tubular cylinder lock with a key ensures optimal theft protection against unauthorized access and tampering.
