Why CCV contactless?

Hygienic & Safe

No touching of buttons required. Contactless payment is the most hygienic type of transaction – reliably certified according to current market requirements.

High-speed checkout

Ideal for hectic places. Amounts up to 50 € will be processed quickly without PIN entry. This reduces queuing before your machine.

Easy integration

Thanks to the installation in **Standard EVA cuts** the duo can easily be integrated into existing snack machines, tank columns or ticket machines.

Versatile insertable

The CCV contactless duo is the perfect choice for all unserved self-service scenarios:

? Vending & Snacks

? e-store columns

? tank columns

?? ticket machines
