Item number UD10727

Product description

HYPER-REALITY SIMULATION • 2026

Thunder Speed 2 players

The boundary between reality and simulation blurs. Experience the most intense racing experience in the industry with 4 screens and brutal motion power.

??

4-Screen Panoramic View

An ultra-wide field of view through four synchronized high-definition displays. The immersive optics eliminates dead angles and pulls players in the middle of the action.

?

5000W Motion Power

Brachial force for real G forces. The massive motion system simulates any curve, ground wave and acceleration with absolute precision.

?

Duo-Experience

Two players can compete simultaneously in separate cockpits or in team mode. Double the fun and sales per session.

??

Heavy Duty Engineering

With a battle weight of 900 KG, the Thunder Speed is designed for maximum stability and longevity in continuous operation. A technical masterpiece made of steel and high-tech.

Technical specifications
