Item number UD10722

Product description

SKILL-VENDING • PRECISION GAME

Brick Stacker

Precision meets profit. The Brick Stacker demands the skill of your customers and turns attention into measurable sales.

??

Stack your way to the top

The intuitive game principle – blocks perfectly stack – is known worldwide and ensures immediate entry without need for explanation. High search potential included.

?

Premium Display

The combination of real glass and noble metal wood elements provides high-quality wins and maximizes play motivation.

??

Pure Skill

No pure slot machine: The Brick Stacker rewards real skill. This ensures confidence in the player and extremely high replay rate.

?

Low Energy, High Impact

With only 110W power consumption, the device is a saving miracle in operation, but achieves maximum attention due to its optical presence.

Technical data

Dimensions **90 x 80 x 210 cm**

Performance **110W | 220V**

Materials **metal, wood, glass**

Configuration **1-Player Skill unit**

Business Case: Cash Flow Hero ?

The Brick Stacker is a highly profitable self-runner for each sales area.

AREA EFFICIENCY

Excellent

COMMITMENT

High Tension

ROI PERIOD

Very short

VENDY1 Expert Tip: Combine the Brick Stacker with high-value prices (e.g. headphones, trend gadgets). The psychological tension when stacking the last blocks is the strongest sales driver in the entire vending range.
