Product description

POWER VERTICAL IMPACT • HAU DEN LUKAS 2.0

Rocket Hammer

3 meters of pure presence. The Rocket Hammer combines physical challenge with spectacular optics for maximum attention.

?

Vertical landmark

With a height of 300 cm, this machine cannot be overlooked. It acts as a natural visitor magnet that captures the views over the heads of the crowd.

?

Pure force measurement

A highly emotional gaming experience: Who beats the hardest? The precise sensor technology and the digital LED display provide immediate feedback and motivate to duel.

?

Dynamic LED FX

The whole column lights up every stroke. Spectacular light effects underline the "rocket" increase in weight and provide an event feel.

??

Industrial Durability

Despite filigree optics, the Rocket Hammer is built for massive stress. The 120 KG heavy housing and the robust impact mechanism guarantee longevity.
