Product description

VENDY1 Machine Solution

Sugar cane machine for modern sales locations

This automatic sugar cane machine brings a special experience to your location. Whether shopping center, amusement park, cinema, indoor playground, vending machine shop or event area – the machine produces fresh sugar cane right in front of the customers' eyes and thus ensures attention, impulse purchases and a strong experience at the point of sale.

Thanks to its compact footprint, automated operation and large storage capacities, the device is ideal for locations with high visitor frequency. The sugar and water containers are designed for longer transit times and can be adapted or managed in the baking end.

Highlights

Fully automatic production of sugar cane

Attractive experience product with high attention

Ideal for shopping malls, leisure parks, cinemas, events and automated stores

Large sugar container with approx. 8 litres capacity
