Item number UD10772

Product description

Frozen Hot Food Vending Machine with Elevator & 22-Inch Touchscreen

The Frozen Hot Food Vending Machine is a modern indoor vending solution for selling frozen ready meals, box lunches, bowls and hot snack products. Customers select their meal directly via the 22-inch Android touchscreen.

The machine combines adjustable frozen storage, an advanced elevator system, belt trays and independent microwave heating. It is ideal for locations where hot meals should be available automatically and without permanent service staff.

Indoor-only vending solution

Indoor use: This machine is designed for indoor installation and should be placed in protected environments.

Important: Outdoor installation should only be considered if a dedicated outdoor version or additional weather protection is confirmed by the manufacturer.

Key benefits

22-inch Android touchscreen: Modern user interface for easy product selection
