Product description

Snack and drinks machine

TCN-CSC-10C V10 Indoor Machine

The TCN-CSC-10C is a modern indoor vending machine for snacks, drinks and other products. With 10, 1-inch touchscreen, cooling, MDB payment standard and online administration, it is ideal for professional indoor sales areas.

Compact machine for indoor use

The machine combines a clear product layout with modern operation via a 10, 1 inch touch screen. The adjustable cooling of 4 to 25 ° C allows both beverages and chilled snacks or other suitable products to be offered.

The black, neutral housing without sticker can be easily integrated into various interiors –, for example, in offices, schools, gyms, workshops, hotels or lounge areas.

Benefits at a glance

? 10, 1-inch touchscreen with Android system

? Adjustable Cooling from 4 to 25 ° C

? Advanced case sensor for reliable product output

? International MDB Standard for Standard Payment Systems

? 4G / WiFi for online inventory and sales management

? 6 levels with 10 compartments for flexible fitting

Flexible product output with spiral system

The TCN-CSC-10C works with spiral-coil trays and has 6 levels each with 10 compartments. Up to 60 product places are thus available. The fitting can be adapted depending on the range.

The integrated case sensor detects whether a product has been output correctly. This ensures greater operational reliability and reduces incorrect purchases in the running automated operation.

Variant 1 (standard)

Level 1 Double spiral (105mm) – chips

Level 2 single spiral (38mm) – Vapes

Level 3-4 Single spiral (60mm) – Snacks

Level 5-6 single spiral (86mm) – drinks
