Item number UD10875

Product description

XXL Flower Vending Machine with 32" Touchscreen, 6 Refrigerated Compartments & Roof – Outdoor

The **XXL flower vending machine** is the large outdoor solution for florists, nurseries and high-traffic locations: a free-standing pavilion with six refrigerated shop-window compartments around the control unit, two additional ambient compartments for cards or gift items and a 32-inch touchscreen that is visible from afar.

The integrated roof protects compartments and display from rain and sun. Cooling from 4 to 20 °C, electric door locking, glass heating and LED lighting turn the machine into a flower shop that never closes – including a factory-fitted Nayax card terminal.

Pavilion design: compartments all around, control unit in the middle

The six refrigerated compartments are arranged around the central control unit, so the machine can be seen from several sides – ideal for squares, in front of supermarkets or at train stations. The customer selects on the 32-inch touchscreen, pays and takes the bouquet directly from the opened compartment.

Two ambient compartments below the display hold greeting cards, vases or chocolates – with the shopping cart function, customers buy bouquet and card in one payment.

Benefits at a glance

6 refrigerated lockers: approx. 48 × 46 × 43 cm each – arranged all around, visible from several sides

2 additional ambient compartments: below the touchscreen for cards, vases and gift items

32-inch touchscreen: large product images, advertising and shopping cart – visible from a distance

Outdoor with roof: integrated roof protects compartments, display and customers

Cooling 4–20 °C: with energy management and glass heating against condensation

Factory-fitted Nayax card terminal: debit card, credit card, Apple Pay, Google Pay

Cloud management: real-time stock, sales data, remote control of cooling and lighting

Capacity & design

Refrigerated compartments: 6 lockers, electrically locked, metal frame with transparent acrylic door

Compartment size: approx. 480 × 460 × 430 mm (W × D × H) each

Additional compartments: 2 ambient compartments below the display

Control unit: central, with additional storage shelves for accessories and refills

Technology: locker dispensing – no spirals, no lift, no damage to the goods

Dimensions & weight

Overall with roof: approx. 3350 mm wide × 1790 mm deep × 2150 mm high

Machine without roof: approx. 2860 mm wide × 1200 mm deep × 1970 mm high

Overall size in metres: approx. 3.35 m × 1.79 m × 2.15 m (with roof)

Weight: on request

Note: Use the dimensions with roof for site planning. The machine is delivered in parts and assembled on site.

Technical data

Model: Flower Vending Machine 32" (pavilion)

Display: 32-inch touchscreen

Operating system: Android 11, 16 GB ROM / 2 GB RAM

Connectivity: Wi-Fi, 3G/4G (SIM card), LAN

Protocol: MDB / RS232

Cooling: 4-20 °C, energy management module

Doors: tempered glass front, electric glass heating, LED light strips

Locking: electric door locks per compartment

Factory-fitted payment: Nayax card terminal

Colour: white or black

Power supply: 220-230 V / 50 Hz

Warranty: 12 months

Actual power consumption depends on ambient temperature, sun exposure and usage. [To the energy cost calculator](#)

Equipment & options

Roof: integrated, protects compartments and display

Advertising display (optional): 43.9-inch screen, playback via USB stick, 3 mm tempered glass

Receipt printer (optional): receipt after purchase

Coin and banknote validators (optional): ICT coin acceptor, ITL NV9 / NV11 with change

Custom wrap (optional): full wrap in your own design

Installation: outdoor and indoor, free-standing

Software & remote management

The machine runs on Android 11 with cloud-based management. Stock, sales and temperatures are available in real time, prices and advertising are managed remotely.

Shopping cart: Buy several compartments in one payment – e.g. bouquet plus greeting card

Quantity discount & promotion: Discount from 2 or 3 products, recommended products before payment

Product details: Image and description for each compartment, just like an online shop

Remote control: Upload advertising, switch cooling and lighting remotely, sales statistics, sub-accounts

Updates: Remote software updates, support via video call

Payment systems

At least one payment option is required for operation. Depending on the location, the machine can be equipped with cashless payment, a cash system or a combination of both.

Cashless payment: Nayax card terminal (debit card, credit card, Apple Pay, Google Pay)

Cash payment: optional coin acceptor (ICT) and banknote validator (ITL NV9 / NV11 with change)

Fee notice: Depending on the contract, cashless payments incur transaction costs and monthly fees

Suitable products

The refrigerated compartments keep cut flowers fresh and allow 24/7 sales – even on Sundays and at night.

Bouquets, roses and single flowers

Potted plants and small arrangements

Greeting cards, vases and gift items (ambient or additional compartments)

Chocolates, wine and gift boxes (as a combo with the bouquet)

Typical locations

Florists & flower shops - 24/7 sales in front of the shop

Nurseries & farm shops

Cemeteries & churches - grave decorations outside opening hours

Train stations, petrol stations & supermarkets

Hospitals, hotels & shopping centres

Note on outdoor installation

The machine is delivered in parts and assembled on site. Before installation, check the power connection, a level and load-bearing surface, ventilation of the cooling system, access for refilling and, if required, a building permit for free-standing sales units. Direct sunlight increases the cooling demand.

The flower shop that never closes

Six refrigerated shop windows all around, 32-inch touchscreen and factory-fitted card payment: sell bouquets on squares, at train stations and in front of supermarkets - 24/7, without staff.
